

RESOLUTION NO. RS2018-1100 (VERCHER, BEDNE, & OTHERS) – This resolution is one of three that would authorize the Department of Water and Sewerage Services to enter into a Utility Relocation Contract No. 8755 with the Tennessee Department of Transportation (TDOT) to allow construction of State Project No. 19028-2245-14, SR-11 (Nolensville Pike) from North of Mill Creek to near SR-254 (Old Hickory Boulevard), attached as Exhibit 1 to the resolution.

Fiscal Note: The total cost of the utility relocation is estimated to be \$761,165. 65% of this cost represents the pro-rata share to which Metro is entitled to reimbursement for relocation of utility facilities located on private utility right-of way. The remaining 35% represents the pro-rata share for relocation of utility facilities located on public highway right-of-way.

Since no betterment is expected to result to Metro's facilities from this project, 100% of the cost would be paid by TDOT to reimburse the Department of Water and Sewerage Services for their actual costs for this work.
